PROFESSIONAL SUMMARY

Network and DevOps-oriented IT professional with 5+ years of experience in network operations, infrastructure management, and system administration. Proven expertise in L2/L3 networking, incident response, and maintaining high-availability systems in ISP environments. Skilled in AWS cloud services, Linux server administration, and automation using modern DevOps tools. Actively transitioning into a DevOps Engineer role with hands-on experience in CI/CD, containerization, and infrastructure automation.

TECHNICAL SKILLS

Networking & Infrastructure

- L2/L3 Routing & Switching (VLANs, STP, OSPF, BGP)
- TCP/IP, DNS, DHCP, VPN Technologies
- Network Monitoring, Incident Management & Troubleshooting

Cloud & Systems

- AWS (EC2, S3, VPC, IAM)
- Linux Server Administration (Ubuntu, CentOS)
- System Monitoring, Logging & Performance Tuning

DevOps & Automation

- CI/CD Pipelines: Jenkins, GitLab CI
- Configuration Management: Ansible
- Containerization & Orchestration: Docker, Kubernetes

Programming & Scripting

- Python (Automation & Scripting)
 - Bash (Linux Scripting)
-

PROFESSIONAL EXPERIENCE

Senior Network Engineer (NOC Team)

Myanmar APN ISP — Mandalay

2022 – 2025

- Led monitoring and maintenance of core network infrastructure, ensuring high availability and optimal performance
 - Configured and managed routers, switches, firewalls, and VPN systems across production environments
 - Performed real-time monitoring and resolved incidents within SLA
 - Conducted root cause analysis (RCA) and implemented preventive solutions
 - Maintained detailed network documentation and topology diagrams
 - Supported data center operations, including hardware installation and cabling
 - Collaborated with teams to improve system reliability and uptime
-

IT Officer

CP Motor — Mandalay

2020 – 2021

- Managed IT infrastructure, including servers, network devices, and security systems
 - Provided technical support and resolved system/network issues efficiently
 - Implemented access control and security policies
 - Assisted in system upgrades, deployments, and IT projects
 - Maintained backup systems and documentation
-

IT Support Technician

Myo Thein Electronics — Mandalay

2018 – 2020

- Delivered technical support for hardware, software, and network issues

- Managed user accounts and permissions
 - Maintained VoIP systems (PBX, SIP, gateways)
 - Conducted user training and created documentation
 - Ensured smooth daily IT operations
-

PROJECTS

CI/CD Pipeline Implementation

- Built CI/CD pipelines using Jenkins and GitLab CI
- Automated build, test, and deployment processes

Containerized Application Deployment

- Developed Docker-based environments (Nginx, PHP, MySQL)
- Used Docker Compose for multi-container management
- Prepared deployments for Kubernetes

AWS Infrastructure Deployment

- Designed infrastructure using EC2, VPC, IAM, and S3
 - Configured secure networking and monitoring
-

EDUCATION

Bachelor's Degree in Geology

Yadanarbon University — Mandalay
2016

Diploma in Information Technology

KMD Institute — Mandalay
2012

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Oracle Cloud Infrastructure Foundations Associate

- Linux Foundation Certified System Administrator (KodeKloud)
 - Cisco CCNA (*Local*)
 - MikroTik Certified Network Associate (MTCNA)
 - MikroTik Certified Routing Engineer (MTCRE)
 - CompTIA A+ (*Local*)
 - CompTIA Network+ (*Local*)
 - Cybersecurity Essentials — The Linux Foundation
-

CORE COMPETENCIES

- Network Troubleshooting & Incident Response
 - Root Cause Analysis (RCA)
 - System Reliability & Optimization
 - Automation & Continuous Improvement
 - Team Collaboration & Communication
-
